

Appl. No. 09/689,577; Filed: October 12, 2000
Dkt. No. 2066.0330001 (as amended); Group Art Unit: 2834
Inventor: Edward C. Edelman; Tel: 202/371-2600
Title: Command and Control System and Method for Controlling
Operational Sequencing of Multiple Turbogenerators Using a Selected
Control Mode

Appl. No. 09/689,577, Filed: October 12, 2000
Dkt. No. 2066.0330001 (as amended); Group Art Unit: 2834
Inventor: Edward C. Edelman; Tel: 202/371-2600
Title: Command and Control System and Method for Controlling
Operational Sequencing of Multiple Turbogenerators Using a Selected
Control Mode

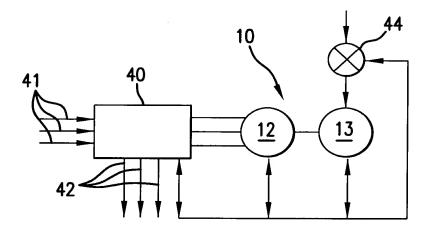

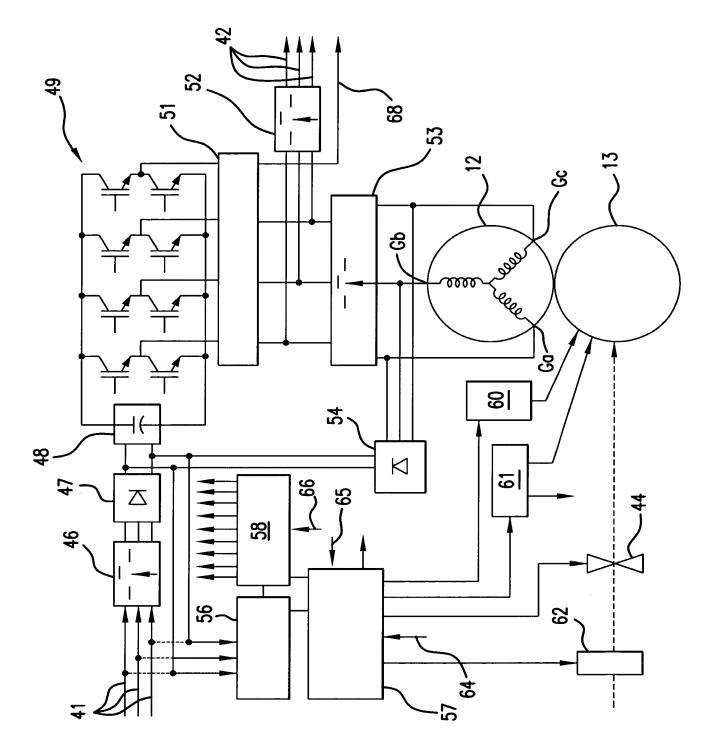

FIG.2

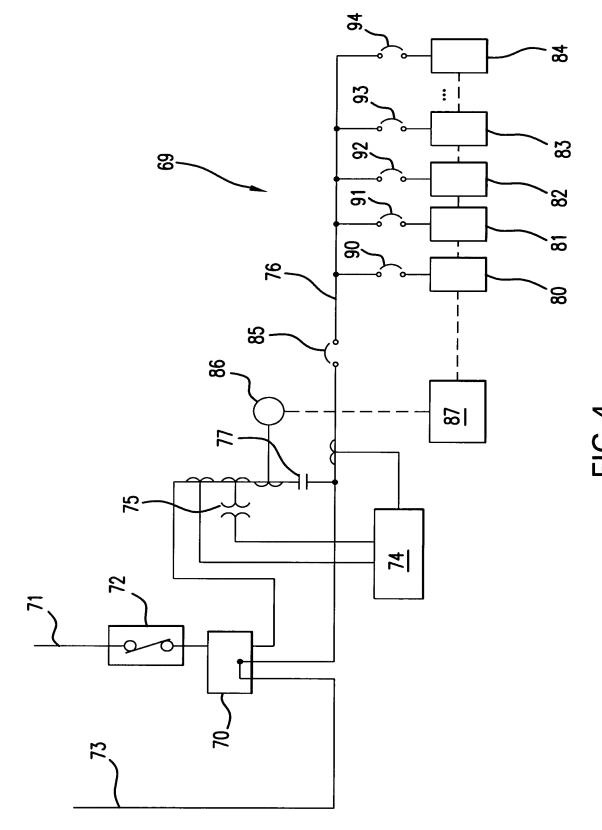

Appl. No. 09/689,577; Filed: October 12, 2000
Dkt. No. 2066.0330001 (as amended); Group Art Unit: 2834
Inventor: Edward C. Edelman; Tel: 202/371-2600
Title: Command and Control System and Method for Controlling
Operational Sequencing of Multiple Turbogenerators Using a Selected
Control Mode
